

COOL KID'S SPACE

"NO GIRLS/ WOMEN ALLOWED! "

To create the experience of camping outdoors for three brothers under 11, Wright Design started with a palette of natural tones- sky blue for the ceiling and browns and greys for the pebble patterned, custom wool rug. Then we added a set of double bunk beds, made from reclaimed wood, painted with milk paint, and fashioned to resemble a tree. Steps emerge from the central trunk and lead to the outstretched branches that form each bunk- each with it's own cubby for books and holster which holds a LED flashlight for reading. We lined the walls behind the bunk with natural cork so that each child could personalize their own space with photos and artwork without marring the walls.

The beds are outfitted with organic cotton bedding and allergy free pillows. Windows are swaged with a eco-friendly mesh fabric that resembles netting, tossed over natural branches foraged from the woods. Black out blinds were added to improve sleeping conditions for long summer days.

Wright Design completed the space with a custom-built desk area that matches the bunk bends, chalkboards, felt floor pillows for sitting or lounging and a gizmo that shines stars onto the ceiling at night.

The boy's added their own finishing touch to the space with the ultimate compliment: a sign for the door that reads, "No girls/ women allowed...!"

Green Features & Products:

- Natura - low VOC latex wall paint by Benjamin Moore
- Stark Wall covering- natural cork
- Chalk board paint- non-toxic, low voc
- Locally crafted custom natural wool carpet- Langhorn Carpet Mills
- Reclaimed wood used for custom- made furniture
- Milk paint for custom furniture
- Organic cotton bedding
- Reclaimed wood lamps
- Wool felt stone floor pillows
- custom mirror for bathroom constructed from found driftwood
- Natural branch coat rack
- Natural branches harvested for use as curtain rods
- Window treatment- Great Plains for Holly Hunt- eco textiles group
